

# COME AND GET A FIRST GLIMPSE OF THE ADVANCED FALL SUIT STYLES

Naturally every woman is anxious to get a glimpse at the new style suits for fall. They are here waiting your viewing. Authoritative styles from Fashion's source, well made, perfect fitting suits, such as this store is renowned for selling.

Prominent among Fashion's favorite materials this season are Serges, Hathers and Tweeds. Brown, grey, tan and navy are the leading shades.

The coats are generally longer than last season, running often to 36 inches, and show various cutaway effects from the most pronounced style down to the most conservative ideas.

Modified versions of the Robespierre collar are appearing, but the majority of coats show the long reverse and collar although the mannish notch collar is also in evidence.

The skirts are often quite plain, a few pleats appearing in many cases however.

Most of the coats are lined with satin and some have a novel double breasted effect and nearly all trimmed with large fancy buttons. Altogether the suits this season are exceptionally stylish and the prices remarkably moderate. Large variety to choose from at from..... **\$20 to \$30**

## New Styles in Ladies' Fall Coats at Prices From \$9.50 to \$30

What woman is not interested in the Fall Coat question? Not many, we think, especially when styles change so rapidly. And this season separate coats are more attractive than ever. You will agree with this statement when you see them, for they are certainly irresistible in cut, fit and finish.

To begin with, the materials used have that soft, warm, luxurious appearance so desirable in a fall coat. Then again they are especially cut to give grace and elegance to the wearer.

The colors mostly favored are browns, fawn, light grey, black and fancy mixtures.

The season's outstanding features are large collars, deep roll reverses, and big turn-back cuffs, and are invariably finished with large fancy buttons that are in themselves a work of art.

Distinctly mannish in cut they present a very attractive appearance.

Prices to suit all pockets from \$9.50 to \$30.00.

## SEE THESE Mallory Hats FOR MEN

Particular men buy their hats here, not so much because of actual necessity in the matter of hats, but because in every selection we take pains to see that they have satisfactory service and are well pleased when they leave the store.

Among the varied stock we carry there is one style better suited

than any other to a particular face. We make it our business to show that style and in the right size.

This year we are featuring the Mallory Hat. It is one of America's best, and is guaranteed that it is rainproof. The newest styles for fall show, a variety of rough felts and velours, soft velvety hats of very rich appearance.

They come in shades of tan, grey and green, and the price is \$4. May we show you?

J. B. Stetson Hats in all the most popular shapes—and the Buckley guaranteed \$3 Derby.

## New Exclusive Millinery Fresh from Eastern Style Centres, Revealing the modes to be worn this fall

What are the new hats going to be like? This is the question that is being asked on every side.

It is your privilege to obtain the answer by a visit to the store today.

Following are a few words on the prevailing modes you may expect to see.

Tailored models will be much in vogue during the early season, later a tendency toward more trimming will be noticed.

The real vogue seems to be for the black hat, though certain color effects will be very popular, such as taupe and white, grey and white, black and white and two color effects.

Erect pile velvets, velour, satin and moire will be the materials mostly used.

By way of trimming natural feathers are very strong, and wings often of very large size and brilliant in color will be considered very stylish.

Altogether the models are exceptionally smart this year. They are ready for your inspection. Come and see.

## FRESH SUPPLY OF Preserving Fruit

Peaches, per crate \$1.00. Plums, per crate \$1.50. Apples, per crate \$1.50. Pears, per crate \$3.00. Crabapples, per crate \$3. Choice Apples, per crate \$2.00. Eating and Cooking apples, per crate \$2.25. Ripe Tomatoes, per crate \$1.50. Celery, per lb. 15c. Blueberries, per lb. 20c. Cucumbers, per doz. \$1.00.

## NEW POTATOES Per bushel \$1.

Sealers: Pins, per doz. \$1; Quarts, \$1.25; 2 Quarts, \$1.50.

Pickling Vinegar: White Wine, per gallon \$1. Cider Vinegar \$1.

Pickling Spice, packet 10c., per lb. 35c.

Cornflakes, 3 pkts. 25c. Baking Powder, 10 oz. tin 20c. Blueberries, gallon tin 75c. Tomato Catsup, gallon tin 65c.

# THE W. E. LORD CO. LTD.

## SCHOOL BOARD

### The Duke To Present Boy Scouts With Colors

The Red Deer Public School Board met in regular session on Wednesday evening. Present: Mr. Simpson, chairman; Mr. Munro, Secretary; Mr. Payne, Mr. Garwell, Mr. Galt, Mr. Clutterbuck, clerk of North Red Deer, wrote thanking the Board for the use of the North Red Deer School for municipal council meetings, and stating that the council would now meet in their municipal building.

The council of North Red Deer asked that the school assessment in the village be made by the village, and not by the town. Messrs. Webb, reeve, McIlraith, councillor, and Clutterbuck, clerk, appeared in support of the request.

Mr. Webb said that confusion was caused by the ratemasters being subject to two differing assessments, viz., one by the town for the school and one by the village for municipal purposes, and to having to pay their taxes at two different places and to two different officers. They would like to have the assessments uniform and, if possible, to have one collection.

The Board could not see that the present school assessment law gave them authority for having their taxes collected by the village council. The Town Council was directed by law to make the school assessment and the village and the L.I.D. property within the school district were made for school assessment purposes part of the Town municipality. They thought, however, that the Town assessor would be willing to meet the Village assessor and agree on a uniform assessment for village and school purposes in North Red Deer.

The Board assented to the proposition that it was the Board's intention to fix up the school grounds for recreation purposes as soon as possible and that they would be very glad to hear at any time any representation from the people of North Red Deer on school matters.

Rev. C. W. G. Moore, Scoutmaster Boy Scouts, interviewed the Board re having the Duke of Connaught present the Boy Scouts with colors on his visit to Red Deer on September 5, to which the Board gave cordial assent.

The Secretary reported that Miss McLean, of Sydney, N.S., had accepted the Board's offer; that Miss Ripley had accepted at Canmore, big school at \$900, and that Miss Close of Coleman, had been wired to, and her answer was expected Thursday.

The following accounts were rendered to be paid: M. A. Munro, ex. expenses to Edmonton, etc., \$9.85; W. Spiers, \$9.28; Day Hardware Co. \$15.00; Town of Red Deer, \$32.70; T. Gudmundson, \$23.25; T. A. Gaetz, \$1.00; Cushing Bros., \$23.25; Smith & Gaetz, \$30.15; Greene & Payne, \$20.50; N. Murphy & Co. \$1.45. Total, \$166.55.

The salary of Principal McKenzi was placed at \$1900 for 1912-13, and Miss Miller, second assistant, at \$1150.

Prizes offered by Canadian Seed Growers' Association for Selected Seed

Official notice is given by the above organization that substantial prizes in the form of cash and special trophies, are offered for seed grown in the province and exhibited at the next Annual Winter Fair or Provincial Seed Exhibition. The date of this Exhibition will be made public later.

In addition to the regular prizes offered to members of the Association, special cash prizes are offered to boys and girls between 12 and 18 years of age, for exhibits of Spring Wheat and White Oats. A sweepstakes prize in the form of a beautiful gold medal, donated by Dr. J. A. Robertson, is also offered to the boy or girl having the best exhibit of oats in the Maritime Provinces, Quebec and Ontario, and wheat in all the Provinces of Manitoba, Saskatchewan and Alberta. Each of these exhibits is to consist of a sheaf which must be at least 6 inches in diameter at the base and a gallon of threshed grain. The plant for this sheaf should be selected by hand from the field before the crop is cut.

Those proposing to compete for these prizes should arrange at once to make the necessary selections and should also write to Secretary Canadian Seed Growers' Association, Ottawa, Ont., and obtain a copy of the prize list and special arrangements regarding the transportation of exhibits.

Now is your chance, boys and girls. Even if you don't happen to win a prize the experience you will gain will increase your chances next time.

## INVASION OF GIRLS

### Young Ontario Woman Arrives To Invade West Seeking Husband

Winnipeg, Man., Aug. 15.—Eighteen prospective brides left the Union station this week for western Canada travelling over the Grand Trunk. A. E. Duff, district passenger agent, states that this is only the first of a large number of Ontario girls who will go west for a similar purpose. Already he had received letters from the various G.T.R. agents throughout the province, stating that there were many girls in the country desirous of taking a chance in the matrimonial market and that he expected to have fully 50 in the next party.

## SAVED BY FISH LINE

### Little Boy Was Rescued by His Sisters in a Miraculous Manner

A remarkable case of life-saving is reported from Woodstock, Ontario. The child named Albert Hawkins, aged eight years. He had been playing on the banks of the River Thames, aged fourteen, and Edna, aged twelve, when he fell into the water. He was about fifteen feet deep. Bertha, standing on a bridge, saw this, and plunged into the water, and swam to the shore, leaving the little boy, whom she could not aid. The young sister, Edna, seized a fishingpole, which they had been using, and in a hopeless effort to save the child, cast the line at him. Providence was kind, and the hook caught in his clothing, thus allowing the girls to drag him to shore, although he was almost past rescue.

## NO CAR SHORTAGE THINKS MR. BURY

### Believes Supply Will Suffice—Railroads Preparing To Send Cars West

Montreal, Aug. 17.—The C.P.R. and the G.T.R. are already arranging for the sending west of all available empty cars in readiness for the moving the grain crop which is expected this year. In fact, the movement of cars west has already begun, and by far the biggest collection rolling stock the west has ever known will be in readiness as soon as the threshing starts.

## MR. JUSTICE ANGLIN

One of the five judges of the Supreme Court of Canada who gave judgment on the marriage question.

## THREE TRAINING CAMPS

### Sites to be Purchased in Maritime Provinces for Manoeuvres

The Minister of Militia, Hon. Col. Hughes, is instituting an important change making for economy of time and money in connection with the annual training camps. At present there is but one national military training ground for the higher tactical manoeuvres and for artillery practice—namely, Petawawa. To this camp the artillery, the permanent corps, the engineers, services, etc., are brought from all parts of the Dominion. This involves a large expenditure for transportation and considerable loss of time to the men coming from the west or from the Maritime Provinces. The Minister proposes that there should be at least three national training camps for a country the size of Canada, and he is now negotiating for the purchase of areas in the Maritime Provinces and in the west, where from these districts can secure the training for which they now have to come to Petawawa. The sites are being purchased at a comparatively small cost and the present loss in time occupied in travelling will be saved by the corps.

## WAS FINE OFFICER

### Young Mounted Policeman Murdered by Indians—Played Man's Part

The story of the murder of Constable Frank W. Davies near South Fork, Alta., by three Indians whom he tried to arrest, is another illustration of how well young Englishmen can serve the Empire even when engaged on such an ordinary vocation as that of a constable of the mounted police. He came out from London, England, some five years ago and started farming at or near Wadena, Sask., but evidently soon tired of that task, because in April, 1909, he applied for admission into the Mounted Police and was sworn in on the 9th of that month. Then he gave his age as twenty-five.

Davies was one of those young Britishers who play the game like men. They know their duty and do it even if death be the reward.

Prior to starting out on what proved to be his last case he had been around the town joking and talking to the boys with whom he was a universal favorite. Just at dusk a terrified Indian hurried into the town. He located the constable, and, in broken English told him that two Indians and a "breed" had shot several times at him, at the same time pointing to a hole in the side of a stone house and in a bundle of blankets he carried. The officer immediately started after them and that was the last seen of him alive.

## CATTLE FROM MEXICO

### Real Long Horned Steers From Mexico's Own Herds for Alberta

Ten trainloads, or in round figures, 10,000 head of the fastest, rangiest, longest horned cattle of Old Mexico were shipped to Alberta, direct from the personal herds of President Madero, who is known as the cattle king of Mexico.

The cattle were sent to the Blood Indian reserve in Southern Alberta, having been shipped from El Paso, Texas. The animals were brought to El Paso by Mexican ranchmen or mounted police and a strong detachment of regular soldiers. The animals are regarded as the most dangerous cattle in the world. A special band of cowboys and vaqueros from Mexico accompanied the herd to Alberta, and some of the men were engaged to stay to herd the cattle.

This is the first shipment of genuine steers that has ever been made to Alberta.

## R. B. BENNETT FOR THE CABINET

Ottawa, Ont., Aug. 12.—It is very probable that next session an additional portfolio will be created and the west will secure a fourth minister. It is understood that strong influence is being brought to bear by the minister of mines appointed. Formerly the department of mines was under the minister of inland revenue. Last session the branch

## WAS TRANSFERRED TO THE DEPARTMENT OF

the interior. This is one of the heaviest departments. The minister of the interior has under him immigration, lands, the Indian branch and forestry department, as well as mines.

It is felt that under a fulfilled mining industry could be given more encouragement than in the past. British Columbia is particularly anxious to see a minister of the interior among the names suggested for the position are R. B. Bennett of Calgary; J. D. Taylor, of New Westminster, to succeed A. S. Goodeve in Kootenai; Green was formerly minister of mines in the British Columbia government.

## NO CAR SHORTAGE THINKS MR. BURY

### Believes Supply Will Suffice—Railroads Preparing To Send Cars West

Montreal, Aug. 17.—The C.P.R. and the G.T.R. are already arranging for the sending west of all available empty cars in readiness for the moving the grain crop which is expected this year. In fact, the movement of cars west has already begun, and by far the biggest collection rolling stock the west has ever known will be in readiness as soon as the threshing starts.

Officials of both roads Friday expressed the opinion that the problem of shifting the crop would this year be handled with the minimum of inconvenience, while the Canadian Northern announced that it is in a position to handle the same proportion of the crop which it handled last year, namely, one-third.

Vice-President Bury, of the C. P. R., whose headquarters are in Winnipeg, declares his belief that there will be no car shortage this year.

## Loans To Build Homes

### Regina Has Prospects of Million Dollars From The Federal Authorities

Regina, Aug. 15.—At a meeting of the city council this evening it was decided to accept the offer of the provincial government of a loan of \$500,000 to the city for use of those whose homes were destroyed by the cyclone.

It was also reported by the finance committee that there is at least a possibility of securing the loan of a million dollars from the dominion government, recommended by Bruce Walker of the Department of the Interior, who last month investigated the situation caused by the cyclone and reported to Hon. Robert Rogers.

## Most Unusual Sight

### Armed Company Will March With Colors and Band Playing

Montreal, Aug. 16.—An unusual scene will be witnessed in Montreal this Thursday when an American regiment, headed by American flags and the men bearing arms will march through the streets headed by Lord Hand.

This will be the occasion of the visit of the second company of the governor's foot guards of New Haven, Conn., who are going to make a brief tour of Canada and will stay two days in Montreal.

## Babies Thrive In Rains

### Medical Officer Ascribes Low Infant Death Rate To Summer Rain.

Vancouver, Aug. 16.—That Vancouver rains are responsible in summer for the great health of the babies, is the statement of Medical Officer Underhill. Since August 1 there have been only seven deaths of infants from intestinal trouble and none at all from typhoid. Dr. Underhill thinks that a spell of wet weather would improve things in Winnipeg.

## MRS. T. N. GIBBS DIES

### Widow of Late Senator Dies in 89th Year—Leaves Son in Winnipeg

Ottawa, Ont., Aug. 14.—The death occurred here, last night, in the 89th year, of Mrs. Gibbs, widow of the late Senator T. N. Gibbs, of Oshawa. Frank Gibbs, member of the Dominion grain commission, arrived at the capital this morning to attend the obsequies of his mother. The late Mrs. Gibbs was the mother of four sons and three daughters, all of whom are alive with the exception of one son. Those who survive her are Frank E. Gibbs, of Port Arthur; Charles F. Gibbs, accountant of the waste; Henry C. Gibbs, of Winnipeg; Mrs. George Thompson and Mrs. Phelps, of Ottawa; and Mrs. A. Grant Perrier, of Kelowna, B.C.

## USED AS WALLPAPER

### Chinese of Newchang Have a Fancy for Old Daily Journals

The Trade and Commerce Department at Ottawa has received interesting information from his Majesty's consul at Newchang, concerning cheap printing paper in China. It seems that in the customs statistics of Newchang for last year there appeared a separate item under the heading of paper an importation of 37,000 cwt. of old newspapers, valued at \$14,618. These old newspapers, which appear to be mostly British, are in extensive demand in the Newchang district for wall paper for native houses and cottages.

## TO CHANGE CALENDAR

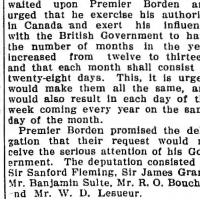

### Prominent Canadians Think the Year Should Have Thirteen Months

The Royal Society of Canada wants the calendar revised. A delegation called upon Premier Borden and urged that he exercise his authority in Canada and exert his influence with the British Government to have the number of months in the year increased from twelve to thirteen, and that each month shall consist of twenty-eight days. This is urged, would make them all the same, and would also result in each day of the week coming every year on the same day of the month.

Frederic Borden promised the delegation that their request would receive the serious attention of his Government. The delegation consisted of Sir Sanford Fleming, Sir James Grant, Mr. H. B. Sault, Mr. R. O. Boucher and Mr. W. D. Lesueur.

## SAY A GOOD WORD

It is wise to say a good word for yourself or your business, whether your stock in trade be merchandise or labor. Want Ads. are the most direct line of communication to the best buyers.

## Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative and female system. Reduce all excesses, and Dr. de Van's are sold at 50c. a box or three for \$1.00. Mail any address. The Societal Drug Co., St. Catharines, Ont.

## BIG SALE OF ALUMINUM WARE

For kitchen use at the lowest prices ever seen in Red Deer.

This is a chance to get good utensils for the kitchen that will last a lifetime, at the lowest possible cost.

Call in and see some of the bargains we can give you besides the above; articles of all descriptions, they will surprise you.

### The News

RED DEER. ALBERTA  
PUBLISHED EVERY WEDNESDAY MORNING  
AT THE NEWS BUILDING, GAST AVENUE, SOUTH  
JNO. A. CARSWELL, Editor and Proprietor  
ADVERTISING RATES ON APPLICATION  
WEDNESDAY, AUGUST 21st, 1912.  
MR. ROOSEVELT'S PLATFORM.

Mr. Roosevelt's platform may yet be very dangerous to both Governor Wilson and President Taft. The people of the United States are an impulsive people; they are beginning to tire of monopolies and trusts and show a desire to get out of the rut. Roosevelt looks good to them. He is a born fighter, and his platform appeals to a good many of them. Tariff protection for the wage earners' pocket book, immediate minimum wage scale for women, government wage boards to fix minimum wage standards for all workers, living wages for all, abolition of night work for women and children, the eight hour day for workmen, on guaranteed day's rest in seven, on surance against old age, sickness and voluntary unemployment, are some of the leading planks, and if the Colonel can make noise enough he may yet be elected to a third term as first citizen of the United States.

#### COMING INTO LINE.

The Toronto Globe admits the changed international situation may require something more than was planned under the Laurier Naval Act and adds:

"If there is an emergency the Government of Canada can take the very largest, most effective, and most immediate action. That action can be made worthy of Canada's position, and in the highest degree helpful to the Imperial navy in the defence of Imperial interests, and can also be made to command the unanimous and most emphatic support of all Canadians."  
It is the sincerest desire of The Globe that such action be taken as may make Canada's message to the world positive, unreserved, and convincing, that the Empire is one and indivisible. The Prime Minister leaves the way open for such action by his wise and statesmanlike course in not playing party politics in Britain and by not tying his own hands by any promise of restriction of his policy. It ought to be possible, as it is indeed naturally expedient, readily to agree upon a course of action in itself the most effective for naval defence and commanding the hearty support of both Liberals and Conservatives without any compromise of principles.

The higher obligations to Canada and to the Empire which, upon all Canadians, and which all Liberals accept, make all more patriotic, expedients divide into insignificant in the presence of a great national and Imperial issue. The Globe will support every honest effort intelligently calculated to remove the question of naval defence from the sphere of party politics in Canada.

#### CHANGED REPRESENTATION.

The next parliament of Canada will have 234 representatives, instead of 221, as at present. The last session representatives, and the West gains 22.

According to the new census, the population of the province of Quebec is 2,092,212.

This divided by 65 gives 30,804, the unit of parliamentary representation in Canada until the next census.

According to the latest census, the population of Nova Scotia is 292,338.

This divided by the unit of representation, 30,804, as shown, gives Nova Scotia only 16 members, or a loss of two. According to the same rule, Ontario will lose four members, New Brunswick, two, and P.E. Island, one.

The parliament representation of the Canadian house of commons, of the different provinces, based on the new census, may be as follows: (A full number is counted only where

the remaining fraction is half or according to the B.N.A. Act.)

Province	Old	New
Alberta	7	12
British Columbia	7	13
Manitoba	10	15
New Brunswick	13	11
Nova Scotia	18	16
Ontario	86	82
Prince Edward Island	4	3
Quebec	65	65
Saskatchewan	10	16
Yukon	1	1
Total	221	234

The original representation of the Maritime Provinces was 40. Under the new arrangement it will be 30. Naturally such a big decrease in representation alarms the people in that portion of Canada, and they are anxious for a change which will prevent their losing any more members in the federal parliament.

#### SOBER SECOND THOUGHT

(Edmonton Journal)

The Saskatchewan Phoenix, a leading liberal newspaper which has done faithful service for the party in Saskatchewan, made a declaration the other day, the importance of which must not be overlooked. Here it is:

"What is wanted is a national liberal policy, a national Liberal interpretation of the tariff question which will hold good in Ontario and hold good in Saskatchewan. . . . unless the Liberal party can assure the industrial world of Canada that it has a sound tariff policy which includes consideration of vested interests it cannot hope to secure a national majority at the next Dominion elections."

It is a pity that the Phoenix could not have influenced the more footloose of its friends before they made the appeal which they did in the recent provincial elections.

A more disinterested campaign was never conducted in the history of Canadian politics. It served to stimulate ill-feeling between the east and the west and while it was a means of snatching a victory of large proportions, its effect on the state of Liberalism cannot but be sad.

The ideas that were promulgated in Saskatchewan are not those which the party dares to make a light on in the provinces to the east of the Great Lakes. The Scott government could support on false pretences and the people which it deceived will be long in recognizing that this is the case.

The seeds of much future trouble have been sown and the Phoenix well to draw attention to the fact.

#### CONGRESS AND PANAMA CANAL.

From The New York Times.  
The offer to the Panama Canal will be commercial war in the world's markets. There will be a tidal wave of tariffs against us. The world will despise us, and will have reason in the opinion of many of ourselves. And the west and while it will cease to regret our course, whether it be right or wrong, for we assume to be judges in our own case, and expect others to accept our judgments. And this for thirty pieces of silver. We shall be doubly dishonored if we decline to arbitrate.

#### NATIONAL HONOR.

From The New York Herald.  
Already the Senate is voting to exempt from Panama canal tolls American vessels both in the Atlantic and foreign trade has aroused a storm of protest abroad against this flag-violation of the terms of the Hay-Pauncefote treaty. Amid this great indignation there comes the natural sequel—a demand for reprisals. While the bill, rejected by the House because of amendments that do not effect the main issue, is yet in the conference stage, there are in some quarters angry demands for concrete display of resentment, while in others the hope is expressed that President Taft will veto any free toll measure that may reach him. The Paris Temps hints at a tariff

war of all the European Powers against the United States. The London press, voicing the feelings of British ship owners, calls the Senate's action disgraceful. The Daily News even this early raises a protest. A fine combination of darkness, mosquitoes, rain and cold, interspersed with the midnight music of coyotes, made a far from pleasant experience, but still such one as will be enjoyed in the recollection.

We would suggest the need either of a louder howl or a journal devoted to the colonies and colonization, and published in London, for the last seventeen years. Mr. and Mrs. Prier are travelling throughout Canada so as to keep in touch with development here. This is their first visit to Red Deer and they expressed themselves as much impressed with its delightful situation. Speaking of investment, Mr. Prier said, "Red Deer is one of the towns which is sure to have a large increase in business and in population, and it must offer a good field for investors."

Col. and Mrs. Clark, with their two sons stopped in Red Deer over Sunday. They are looking for investments and for a place to make a home, and were much pleased with the prospects here. Col. Clark is a surgeon and is much versed in municipal improvements, and if he decides to make his home here will be a valuable addition to the community.

#### BETWEEN OURSELVES.

(By Acadia)

"Red Deer," said a recent visitor, "impresses me as a place which is going to have a large city forced upon it while its citizens are dreaming. Our friend from the rest of the world was right and wrong. It had correctly gauged the importance of Red Deer's location and natural advantages, but it had not had a wrong impression of its citizens. It had dreamed, it does so in a lawful four post bed, which is the proper place where to induce its dreams. In the day time, if our townsmen dream, they day dream which is a different thing from dreaming. It takes initiative to dream when awake; it takes a keen brain and an optimistic spirit. Our citizens have no delusions with regard to Red Deer's location. The cloud of prosperity on the horizon may be but the size of a man's hand at present, but every man of sound judgment and clear vision knows that cloud's potentialities and is looking for a big shower when it shall disperse."

Among the most interesting of the settlers in this new country is what might be called the clan Ontario. There is something striking in the way an Ontario stranger, setting out in Red Deer, is greeted by an Ontario resident; there is nothing quite like it out west. The latter party gets the impression every time that both the stranger and the resident, while trying hard to repress within decent bounds the joy of having been born in that favored province, are yet hardly able to do so, so real and deep is the pride.

The fact that the Ontario people is so full of life, and makes us wish almost that such had been our luck. One only has to see which we take in a little place of our own prevents the treason of such a thought, for even though a man's birthplace be the desert of Arabia, the poet is still true when he sings—

"Lives there a man with soul so dead,  
Who never to himself hath said,  
This is my own, my native land."

Still, it is the Ontario man and his good wife whose pride of province outshines all other Canadian. Perhaps this is due to the fact that there is a larger number of settlers in the west from that province than from any other. We have a tendency to the opinion that even if this were not so, the nature and quality of Ontario patriotism would still find its outlet in the west. We have a respect for every man's sentiments, for the birthplace and even for the birthstone of all men.

We spent a few minutes during the past week in visiting the town's publicity bureau and had an instructive chat with the versatile and energetic Commissioner, Mr. Davison. This gentleman performs his exacting duties without much hint of tedium, but but from the fact that to the largest cities of Alberta, Red Deer is perhaps the best and most thoroughly equipped town in the province. We would praise the publicity work of the Commissioner to be of a very effective order. At a later date we propose to devote some space to writing up the work of the publicity department. Meanwhile, it is a matter for congratulation that while so many of our citizens are so proud of Canada have had more or less disapproval in experimenting with publicity commissions, Red Deer has been able to command the services of a gentleman singularly well fitted, by nature, by education, and by business and financial training, to render service of an exceptional order in the development of the town and district.

Mr. Stephenson entertained us during the past week to some splendid music on the Victor, and incidentally dropped a remark in conversation which we will not omit to repeat, to which we would like to see more prominent given. We were informed that more and more the phonograph is being used in the public schools, many countries for educational purposes. We were not aware that this was so, but, if the idea has been seriously tried, it is a worthy suggestion, the value of which the school authorities in Red Deer, for we believe that there is no school in the province, and especially for the public schools of our own town. With the present perfection in reproduction, and the subtle rartly tried to realize its educational purposes, it is not difficult to see a large and useful field in the school for the phonograph. The innovation might afford a welcome relief to the overworked work of our teachers.

Two juvenile tenderfoot residents in Red Deer strayed into the adjacent wilds the other evening awhile, and

had to stay out all night, as reported elsewhere. Apart from the worry at home, the experience was novel and interesting, and these junior citizens are not likely soon to forget it. A fine combination of darkness, mosquitoes, rain and cold, interspersed with the midnight music of coyotes, made a far from pleasant experience, but still such one as will be enjoyed in the recollection.

We would suggest the need either of a louder howl or a journal devoted to the colonies and colonization, and published in London, for the last seventeen years. Mr. and Mrs. Prier are travelling throughout Canada so as to keep in touch with development here. This is their first visit to Red Deer and they expressed themselves as much impressed with its delightful situation. Speaking of investment, Mr. Prier said, "Red Deer is one of the towns which is sure to have a large increase in business and in population, and it must offer a good field for investors."

Col. and Mrs. Clark, with their two sons stopped in Red Deer over Sunday. They are looking for investments and for a place to make a home, and were much pleased with the prospects here. Col. Clark is a surgeon and is much versed in municipal improvements, and if he decides to make his home here will be a valuable addition to the community.

#### MANLY PROMINENT VISITORS IN TOWN

They All Like Red Deer

Mr. F. W. and Mrs. Prier were visitors at Red Deer last week. Mr. Prier is Managing Editor of the "Pioneer," a monthly journal devoted to the colonies and colonization, and published in London, for the last seventeen years. Mr. and Mrs. Prier are travelling throughout Canada so as to keep in touch with development here. This is their first visit to Red Deer and they expressed themselves as much impressed with its delightful situation. Speaking of investment, Mr. Prier said, "Red Deer is one of the towns which is sure to have a large increase in business and in population, and it must offer a good field for investors."

Col. and Mrs. Clark, with their two sons stopped in Red Deer over Sunday. They are looking for investments and for a place to make a home, and were much pleased with the prospects here. Col. Clark is a surgeon and is much versed in municipal improvements, and if he decides to make his home here will be a valuable addition to the community.

#### HOMES WANTED FOR LITTLE ONES

The Department of Neglected Children, at Edmonton, are anxious to find homes for a number of infants—varying in age from two months to two years.

Two little girls, healthy and attractive, are in need of the loving care of a mother, and are seeking homes. Gracie, a Protestant, aged three months, is a little beauty and worthy of the best home in Alberta. Mary, also a Protestant child, aged three and half months, who has the most beautiful violet eyes and a winning smile, is in need of a good Protestant home.

Millie is a little bright girl of two months with all the charms of a healthy, happy baby. Johnny, coming four months, is a really coming voter, and promises to be a good looking boy. This boy would be a prize winner at any baby show.

Randolph, a six months boy, is longed for a father and mother to take care of him. He is also a Protestant boy.

In addition to this group of infants, there are two little girls aged three years, and a little girl aged thirteen years, who are seeking homes among Protestant families.

A little girl of eleven, a really beautiful child, wants a good Roman Catholic home, and another, a girl of ten and a half, Annie, who is the making of a lovely woman, is also for a Roman Catholic home.

There is no desire to receive applications from people who wish to get a child for service only; people who are interested in the children, and desire to give a child a good start in life, are those sought as foster parents.

Anyone anxious to adopt into their home any of the above children, with the understanding that the child be treated in the same way as if it were one of the family, will receive a prompt reply to a letter addressed to the Superintendent of Neglected Children, Edmonton.

#### The 1913 Hobbie

We are informed by the arbiters' fashion, who do most of their arbitrating in the west, that where they cannot be reached by the ultimate consumer, that the 1913 models in hobbie skirts will make the 1912 style look like a stricken Mother Hubbard of the vintage of 1892.

At present 21 yards of sheeting are required to erect a tube skirt for a woman, but to dispense with the top of a step ladder. This voluminous and loose-flowing garment is now to be discarded in favor of one which requires only 11 yards, and required the wearer to get along without any hips or waist.

The obtrusive hip will not be in anybody's repertoire next year, who does not wish to take other people's dust. The speeding in-step of the 20-inch waist will also become a plain-faded memory.

It is proposed to start the waist immediately below the chin and allow it to taper gently to the ankles in a most perfect effort. This will be a great boon to stout society leaders who have more waist than they know what to do with.

The general effect of this reform will be to give women the elegant, severe lines of a hobe hand, without preventing her in the slightest degree in slipping on the top step of a ladder.

After a woman has been poured into one of these skirts, she is a healthy, less condition, she will not be able to do much of anything except pant in a hurried and ostentatious manner. But she will be in a better frame of mind, and will be able to do much of anything except pant in a hurried and ostentatious manner.

Some of these 1913 skirt models come in sections, like prepared food, and can be put on by a woman who has a plumber's license, with the aid of a bottle of liquid glue. The most expensive kinds are guaranteed to fit like an alpaca coat in a stiff breeze.

Women who expect to get in on the big model-shaking party this summer, a day, between meals, run around a half-mile track before breakfast and abstain from starched foods.

## Official Programme!

Grand Stand Attractions of the Central Alberta Fair, Red Deer, August 21st, 22nd and 23rd

### WEDNESDAY, AUGUST 21

(Stock Judging and Children's Day)

All children under 15 years of age will be admitted to the grand stand free and a special continuous vaudeville performance and other suitable attractions will begin at 2:30 for the children's entertainment.

#### ADMISSION TO GROUNDS:

Children 15c . . . Adults 25c

Mr. Leonard L. Klink, Prof. Cereal Husbandry, McDonald College, Montreal, called at the Board of Trade office on Monday. Mr. Klink was in the city to discuss the Red Deer because of its reputation as a dairy center and wished to learn of the success that had been made with alfalfa. Prof. Klink had heard of the Ladies' College and was taken out by Mr. Horton to see the building.

#### Local Improvement District No. 19-7-4

A meeting of the Council of L.I.D. 19-7-4 and Municipal Committee of Red Deer Municipality No. 339, was held in the City Hall, August 17th, Present Messrs. McKinnon, McConnell, Ross and Field and the Secretary.

Minutes of last meeting read and on motion were adopted as read.

The secretary was authorized to write the Department of surveys to have the surveys of the Township of Division from road allowance between Nos. 23 and 30 and 31 and 32, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 63

## Exposing Pastor Russell

(Mail and Empire)

A religious publication in Chicago announces the first of a series of articles exposing Pastor Russell. (Cheers.) The Pastor recently played a joke on most of the newspapers in the United States and Canada, and induced the Mail and Empire, among others, to comment on the decision of the International Bible Students' Association to the effect that there was no place of eternal punishment. This declaration was taken as a good piece of news, and coming from so authoritative a source as the International Bible Students' Association, it was featured by thousands of newspapers. Now it appears that the International Bible Students' Association is another name for Pastor Russell and his followers, and that what was deemed a most important statement from an orthodox body was merely the opinion of a man who is regarded in many quarters as a faker, and whose opinion on a religious matter would certainly not be accepted by any regular churchgoer. So the exposure of the pastor will not be stayed by the victimized newspapers.

### NOT A REAL CLERGYMAN.

Pastor Russell was in Toronto not long ago, and spoke to a large audience here. Before his coming his name was familiar enough, since it appears weekly at the head of a religious article in the columns of a contemporary, but it is doubtful if many people who read his letters know much about him. It may be that when the religious body gets through with its exposure most biographical data will be available. At the present time not a great deal is known of Russell, and it must be said that the facts that have been given to the public by the Brooklyn Eagle, which has also attempted to expose him, are not of a character that he would be glad to own. The fact that Pastor Russell is not a clergyman, was never ordained, and belongs to no regular religious denomination, may not be wholly to his discredit, for many of the world's greatest moral teachers are not clergymen, neither were they leaders of recognized churches. It is probable, however, that because of the constant repetition of the word "pastor" that Russell's readers suppose him to be a minister.

### AN EX-WIFE'S STORIES.

It is said that he graduated from a haberdashery's shop in Pittsburgh to his present position. Of the character of the cult of which he is the head not much is public property, but it is certain that in course of time he built up a considerable following, and that he had an elaborate publishing establishment in Pittsburgh which he called Zion's Watch Tower. The following are some of the stories that got into circulation about him, and which his readers have Pittsburgh. He moved to Brooklyn, and there his headquarters have

been ever since. "In Brooklyn the Eagle newspaper has failed to welcome him as a distinguished citizen, and has made charges against him that other papers not so well informed might hesitate to publish. It seems to be admitted at least when he left Pittsburgh the pastor started the name of his organization and the name of his book, which is supposed to be the Mauna Charta of his followers. It was called "Studies in the Scriptures," but since has been named "Studies in the Scriptures," and has been reissued in smaller volumes.

### A BELIEVER IN PRINTERS' INK.

It is not clear that the pastor has any regular church or pulpit from which to expound his views of the Scriptures. He is a believer in the printed rather than in the spoken word, and makes more use of pamphlets, tracts, and the like, than of any other minister before or since. He maintains an elaborate press bureau, with five agents, many of whom are religious writers with newspapers. At the present time his sermons appear every week in 1,000 newspapers. In the most important of the papers it is said he pays for the space occupied by his discourses; and in the others he induces the publisher to pay him. That they continue to pay is some evidence that his writings must be more or less popular, and that there is a demand for them. They are travel tracts, and at other times of the "heart-to-heart" species of conversation on moral themes.

### THE MILLENNIUM IN OCTOBER, 1913.

It is difficult to say just what the theology of Pastor Russell consists of. He believes the millennium approaching, and that it will arrive about a year from next October. It will not be recognized by the general public at first, but the elect, namely the followers of Russell, will be able to identify it at once, and make their arrangements accordingly. Disbelief in all the churches is another prominent plank in the Russell theological platform. He says that the priests are not real shepherds, but that in they control the truth from church goers. Russell claims to be able to extract the true meaning from the Holy Writings, and it is his views of the American manufacturers. He must go into the West, establish branch factories and melt this American con position on the ground."

## Canadian Coopers Used Sixty Million Feet of Lumber in 1911

The value of the material used in the slack cooperage industry in Canada in 1911, according to figures prepared by the Forestry Branch, Department of the Interior, was \$1,465,702, or about \$130,000 less than the value in 1910. The amount of material consumed, outside of a large amount of waste which cannot be accurately determined, is estimated at 62,353,190 feet, board measure. Ontario leads in this industry, with a production of 64 per cent. of the total number of staves, 70 per cent. of the headings and 70 per cent. of the hoops. Nova Scotia, with a large proportion of fish barrels, was next with 29 per cent., 24 per cent. and 20 per cent., respectively, of the total number of staves, headings and hoops. The other provinces produce very limited quantities.

Imports exceeded exports of \$135,463 by \$194,529. White oak staves form an important part of the imports, numbering, in all, 7,293,000, whereas only 2,768,000 were cut in Canada. The Canadian supply of oak, which alone is suitable for the manufacture of containers for alcoholic beverages, is so nearly exhausted that this branch of the tight cooperage industry will practically cease in a few years.

The cost of materials for slack cooperage averaged as follows per thousand pieces: Staves, \$5.91; heading (sets), \$54.77; hoops, \$7.62. Figures on the cost of tight cooperage materials were not available.

## Idle Money

If you have a few hundred or a few thousand dollars that is idle, you can put it to work earning you good interest by placing a Money to Loan Ad. in our Classified Want Columns.

People with gilt-edge collateral often require ready cash and will pay good interest for it. Put your money to work.

## Leslieville Literary Society Picnic

The picnic given by the L.L.S. on Saturday, August 10th, proved quite successful. It was attended by nearly seventy people, all of whom appeared to be having an enjoyable time. The afternoon was spent in games and contests of various kinds, in which nearly all took part in the real picnic spirit, which was rivaled only by that displayed when supper was announced.

After the supper, Rev. E. G. Heaven, Vice-President of the Society, gave a short address, in which he mentioned the chief aims of the Literary Society, its pleasant meetings during the past season, and its bright prospects for the coming winter. At the conclusion of his remarks, the Society presented to their President, Mr. Ralph Patterson, a set of books by Robert Louis Stevenson, as a gift, showing their appreciation of his services, and given also in honor of his approaching marriage.

The picnicers adjourned at an early hour, with some reluctance, tired, perhaps, but happy.

## A Positive Cure for Indigestion

If you have indigestion, your food ferments in the stomach and bowels. It does more: It decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath, which disgusts your friends, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and often rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

Mi-o-na is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by (Gaetz) Cornett Drug & Book Co. to cure or money back. The price of a large box of Mi-o-na tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

## FARM IMPLEMENTS

Necessity of Makers of Canadian Machinery Attending to Western Trade

Implement, implements, implements everywhere and none under cover! This strikes a person at almost every station in the vast agricultural area of the West. Where does this machinery come from? When the Made-in-Canada train was at Regina, Mr. T. H. Race, the official lecturer, accompanied by the Secretary of the Board of Trade, made a most interesting and valuable estimate of the value of machinery awaiting distribution. Here is what they found:

American implements \$2,000,000.00  
Canadian implements \$9,000.00

### Enormous Trade

A booklet issued by the Regina Board of Trade says: "Regina is the largest point of distribution of agricultural implements in the world." In view of this statement the above figures are even more significant, in that they probably represent the relative expenditures on American and Canadian machinery throughout the West. At every stop of the Made-in-Canada train the percentage of American implements was very large. Typical of numerous stations along the line may be mentioned the sign of an American firm prominently displayed over a yard of farm machines at a settlement west of Maple Creek. The town was born only this year, but its principal trade, so far, is the sale of farm machinery. The enormous revenue in the West from agricultural machinery is illustrated by the fact that the Canadian Board of Trade who stated that last year Canada's worth of implements was delivered from that point, the freight and customs paid being \$12,000,000.

### Hint to Canadians

The agents for United States manufacturing concerns are selling farm machinery in car load lots in many towns, which indicates that the Canadian manufacturers of implements are not taking the proper advantage of their opportunity. In this connection the "Canadian Manufacturer" is blind to the necessities of Western Canada and the signs of the times if he does not realize that it is his duty to get into the West with branch factories and offices and be mentioned fully and prominently in the West, establish branch factories and melt this American con position on the ground."

## PRODUCTION AND PRICES

For a time wheat growing will continue to be the chief occupation of Western farmers. We cannot co-operate the Western people into mixed farming any more than we can induce them to leave the East to cultivate that which holds promise of the great return for the least labor. In the meantime we will continue to send great volume of dairy and meat products to the West, enhancing price at home in order to find the necessary supply for Western consumers. Who we can do, however, is to assist by generous appropriations and by expert advice in the stimulation of scientific agriculture both in the newer and the older Provinces. The truth is the consumer is running far ahead of production, and that only by increasing production will easier conditions of living be restored. If the West were to supply for agricultural colleges, for co-operative experiments, for field instruction, for provision of crates for any other object which in the judgment of its legislators and its people will stimulate the production of new industries and improve general conditions, it should be voted freely, not as a concession to sections, but as an imperative national duty. The customs revenue alone in 1911 was a short address, in which he mentioned the chief aims of the Literary Society, its pleasant meetings during the past season, and its bright prospects for the coming winter. At the conclusion of his remarks, the Society presented to their President, Mr. Ralph Patterson, a set of books by Robert Louis Stevenson, as a gift, showing their appreciation of his services, and given also in honor of his approaching marriage.

## LOCAL INDUSTRIES

Few Western Municipalities Are Not Willing to Give Financial Aid

Cities, towns and even incorporated villages throughout the West are giving much thought to the establishment of local industries. Winnipeg, already has fifteen thousand factory employees whose annual wages amount to nine million dollars. There are few municipalities in Manitoba, Saskatchewan and Alberta who are willing to aid, financially, the establishment of some local industry. Branches of the local industry, which will eventually be distributed as free trade for factories. Souris is completing a power plant, from which it is hoped to supply cheap power to factories. Bala-svain proposes to pipe water for ten miles, partly at least, for the encouragement of industries. The might be extended indefinitely. Municipalities know that industrial development would very materially increase municipal funds, by establishing a home market for farm produce, such as milk, cream, eggs and meat.

### IT HAS BEEN PROVED

That Marbella, Nature's Scalp Tonic, has a record for growing hair—95 cases out of 100. It is the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. Removes dandruff. Prevents falling hair. Every package contains a packet of Marbella Dry Shampoo Powder. Price for complete home treatment, \$1.00. Sold and guaranteed by G. B. Parker.

District Passenger Agent,  
200 Portage Ave. - Winnipeg.

## GARDEN OF EDEI' NEAR NORTH POLE

Expedition to Unfold the Mystery of Crocker Land in the Arctic Sea

An attempt is to be made to explore an unknown North land, which has only been seen—and that at a distance—by one white man, Commander Peary.

The famous explorer, when on his journey to the North Pole in July, 1906, saw the unknown land through a telescope from Cape Thomas Hubbard, the northernmost point of one of the islands lying north of the North American mainland. This unknown land has been called Crocker Land.

The extraordinary part about Crocker land is that its existence was known before any civilized human being had ever seen it. Dr. R. H. Harris, the marine expert, was puzzled by the curious currents of the Arctic Sea. No known land could explain them, and the only way to account for their existence was by a mysterious land beyond North America and Siberia.

In July, 1906, as stated above, Commander Peary saw this land at a distance, but that was all. The North Pole, the centre of his ambition, lay 150 miles farther north.

Not only did Dr. Harris predict the existence of Crocker Land, but he has actually stated its approximate location. From calculations of ocean currents this mysterious Arctic land must be nearly half a mile wide and a few miles long.

There are a great many reasons for supposing that the unknown land is the cradle of the human race. Every nation has its legends and traditions. The Chinese to the Greeks, as to these legends are very vague. Some of them are a curious thing that is a part of the human race.

Some of the legends of the Arctic circle, close to the North Pole. The story of the Arctic circle is a story of the stars revolving round the heavens in a horizontal direction instead of rising and setting as we see them.

Some of these early inhabitants fled south as the climate changed, while others stayed and perished in the cold. There is every reason to believe, when other facts are taken into consideration, that the Eskimo, the descendants of those who stayed.

The expedition to Crocker Land will be armed with the most powerful instruments for investigating the theories which have been put forward. Every effort will be made to recover traces of the lost inhabitants of the mysterious continent.

The expedition is making preparations for a stay in the freezing wastes of at least two years. If, as appears likely, their efforts are crowned with success, the expedition will have explored the most famous of all exploring expeditions.

It will have found the Garden of Eden.

**HE'S CALLED TOM**  
Finance Minister's First Name Not Familiar to Many

Hon. W. T. White was not elected in 1911, and he was not elected in 1912. He was not elected in 1913, and he was not elected in 1914. He was not elected in 1915, and he was not elected in 1916.

Mr. White was christened Wesley Thomas. Somehow, his name on the electoral lists of 1911 appeared as William Thomas, and the minister was gazetted as William Thomas, and his name is recorded as such in the parliamentary guide. Now it has been discovered that the name is Wesley not William.

Mr. White was the first to discover the curious mistake.

**IN DAYS OF POMPEII**  
At the corner of the Via Stabia, and the Vicolo di Mercurio in Pompeii is the house of the Lacooni, which was a complete milliner's and baker's establishment, containing grinding mills and a large oven for baking.

It was from this oven that the leaves of bread now shown in the Naples museum were taken. By the side of the oven is a lead boiler in an excellent state of preservation. The boiler was heated with charcoal, the hot water being drawn off by means of a bronze tap.

This points to the fact that the dough was kneaded with warm water. Charcoal was generally used for heating and cooking purposes, though lately some excavations in Belgium prove that the use of coal was known to the Romans.

The rooms were heated by means of a brazier, exactly the same as the "bric-a-brac" used by the Italians to-day.

**Church Flights Caterpillar**  
Archbishop Bruchet of Montreal has issued instructions to the clergy of Quebec province to have their parishioners do all in their power to destroy the pests of the tent caterpillars and the insects themselves which are a scourge to the fruit trees.

**Claims From 2,383 of Relatives of Titanic Victims**  
London, Aug. 15.—At a meeting of the Man-It-On house committee of the Titanic relief fund, the mayor of Southampton reported that of 673 of the crew who were drowned, 535 belonged to Southampton and 138 to other places. In respect of those be-

## SOLDIERS' HARNESS

Canadian Militiamen Will Soon all be Relieved of Leather Equipment

The new web equipment which will shortly be in general use by the Canadian militia will mean far greater comfort to the men who have to wear it, in comparison to the uncomfortable equipments of bygone days.

The arrangement of this equipment is a soldier to have nearly with him the whole of his equipment, while when an action is imminent, the pack and its contents can be discarded, and extra ammunition in "emergency" packs carried in place of the pack.

This equipment is perfectly balanced, is made of flexible and woven webbing instead of old leather straps, is worn loose without the pack shifting, and the whole load is carried on about the neck and shoulders, and there are no straps crossing the chest.

The equipment is perfectly balanced, is made of flexible and woven webbing instead of old leather straps, is worn loose without the pack shifting, and the whole load is carried on about the neck and shoulders, and there are no straps crossing the chest.

**OUR GREAT BUFFALO HERD**  
The One Monarchs of the Plains Thrive in Captivity

The five hundred buffalo purchased by the Canadian Government from Michael Pablo of Montana has increased to nearly 1,000. The animals, which are by far the largest collection anywhere in the world, are being taken to weed out the cross-breeds and to keep the strain pure.

Whichever of the old times killed or lives on to multiply its kind, a buffalo is a first class investment. It is worth \$500 for its head and hide. Killed it is worth the same amount of money plus forty cents a pound for its meat, which is estimated to be a great delicacy by gourmands.

Buffalo roast makes delicious Christmas dinner for people who can afford it, and between whiles may figure as a delicacy at banquets of the New York Canadian Club and similar gatherings. Alive, the buffalo is worth \$5,000, and is regarded as a valuable asset to the two Americas.

Five years ago the buffalo ranged freely over the whole north-western plateau. The Canadian prairies still show traces of the old times, and the shape of old buffalo wallows, and the place near Medicine Hat, at the foot of a cut bank, some two hundred feet high, is a great nest of buffalo bones which marks the spot where the Indians made one of their great drives.

But nowadays the buffalo is a limited monarch. Buffalo Park, near Winnipeg, Alberta, where the big herd is located, is an enclosure twenty miles square, with a high wire fence around it. Inside the fence the buffalo live the old familiar scene of his glorious past—the rolling prairie, the poplar bluffs, the knolls and chaparral, the slow and wallows, but not the Indians on slaughter bent. A visitor who tries to drive across the reservation in a buggy or a buffalo will charge at him, and he will be killed or maimed, but a man on horseback the buffalo rather welcomes, probably because it reminds him of old times.

The whole, civilization has times. On the buffalo a little lack. Instead of dying on the prairie when the thermometer is sixty below zero, and the snow deep for him to rustle grass for himself, he will come meekly to the station and eat baled hay out of the feed racks.

**SIR CHAS. FITZPATRICK**  
Chief Justice of the Supreme Court of Canada.

**BY HIS FIRST WIFE**  
A certain New Brunswick clergyman had occasion to visit the Asylum in the city of St. John. Passing through one of the wards, he was accosted by a patient, an individual who could hardly lay claim to any but the most mundane cast of countenance, who gravely said to him, "I am St. Peter."

The reverend visitor expressed his gratification at meeting so famous a character, and passed on presently to another ward. On returning, a few minutes later, he was again accosted by his plausibly inclined friend, who surprised him by remarking, "I am St. Paul."

"But," exclaimed the clergyman, "you are a minute ago that you were St. Peter."

"Ah, yes," explained the man, "but that was by my first wife."

**Polecat Captured**  
A polecat was captured at Allamew, Breconshire, Wales. This rare animal is better known in the county by its Welsh name, "Ffynllwrt." The marauder, which differs very much from the polecat, is supposed to visit the Heallt Wood, in the vicinity, occasionally.

longing to Southampton claims had been made for 239 widows, 533 children under 16, and 213 other dependents.

Sir William Soulsby said that in respect of 161 of the 817 passengers lost, claims had been received. Of these 232 were British or Irish, 12 Austro-Hungarians, 18 Belgians, 23 Austrians, three Danes, two French, one Italian, 16 Norwegians, 36 Russians, 72 Swedes, 19 Swiss and 11 Syrians. These claims showed 128 widows, 255 orphans, 452 parents and 563 other relatives.

## W.C.T.U. COLUMN

(Contributed)

**RISKY "BENEFITS"**  
Recently, at the Medical Council, held in Toronto, Sir James Grant, of Ottawa College, made a speech in reference to tuberculosis, in which he depicted the evils of intemperance, but took occasion, so it is said, to recommend the moderate use of beer and ale, which he called "the liquid beefsteak" of the working classes, and which he declared to be "nutritious and beneficial."

And just a short time before a few Italians and Poles, not to mention this "liquid beefsteak," and two men were murdered; and just about the time Sir James spoke an engineer of the Lackawanna Railway had a little "liquid beefsteak" and wrecked his train and 40 lives went suddenly out.

It is not time that sensible and intelligent men quit talking nonsense on about the "benefits" of intoxicants?—Christian Guardian.

**BEAVER**  
"My dear boy, men have fought, bled and died, but not for beer."

"Arnold Winkelreid did not throw himself upon the Austrian spears because he was ordered to close his saloons at nine o'clock."

"William Tell did not hide his arrow under his vest to kill the tyrant, because the edict had gone forth that the free-born Switzer should not drink a glass of beer every Sunday."

"Freedom did not shriek as Kosciuszko fell over a whiskey barrel."

"Warren did not die that beer might flow as the brooks murmur seven days a week."

"Even the battle of Brandywine was not fought that whiskey might be free."

"The battles of this world, my son, have been fought for grander things than free whiskey. The heroes who fall in a struggle for ran fall in the neck, and their martyrdom is clouded by the haunting phantoms of the jinnams."

Whiskey makes men drunk, it is true, but they usually fight other drunken men. The champion of beer does not stand in the temple of fame; he stands in the police court. Honor never has the delirium tremens. Glory does not wear a red nose, and fame blows a horn, but never takes one.—Rev. R. J. Durdette.

**"WELL, YOU SEE I'M A TEEETOTALER."**  
Billy Batten is a Yorkshire football player, and a miner. At the age of 19 he had attained every honour that was possible on the football field. At present he is 22 years of age, and is regarded as the finest three-quarter back in the Northern Union. Although his work in the mine is laborious, he is always in

fine condition. When asked how he managed to keep in such splendid condition, his reply was, "Well, you see, in the first place, I am a teetotaler and a non-smoker, and as I have always been an athlete, I keep up my training at all times. My football weight is 13 stones, but I do a lot of running on the track in the summer, and in the football season on two or three nights a week I get into my running things and run from Kinsley as far as the Four Lane Ends and back. I have done that many a time after ten or eleven o'clock at night, and the sight of me at that time of night, in my white running things, has given me a man a fright. Then my work in the mine is a running-about job—that of a 'corporal'—helps to keep me fit. But chiefly I attribute my fitness to keeping teetotal."

It is well for our country and good for the race that physical fitness and indulgence in alcohol cannot go together. To be always "fit," a man must be always teetotal—that is, a fact that win's drink—Temperance.

**POWDERED FACES—A SICKENING SIGHT.**  
A woman, writing to the New York Herald, has very decided views on the subject of face powder, particularly when applied by very young girls. Powdered faces, where the powder is put on thick, are undoubtedly a sickening sight.

The writer says:  
"I have seen the effect of the powder at large, especially fathers and mothers of very young girls, to the fearful evil that has suddenly confronted us, in the repulsive sight which greets one on all sides as we walk the streets—especially in Broadway and Fifth Avenue—in the white and painted faces one meets."

I blush to think they are of my sex, and call them women—girls scarcely out of their teens and women of older years, all years, with their entire faces whitened and a smudge of red on their cheeks and lips. Surely they can't be copying the stage; actresses do not do this. They think they make themselves attractive? Do they not know that besides the great disfigurement they are injuring their skin, so in a short time they will look yellow and old as a woman of eighty?"

Some poor young girls may have told their parents and have no one to advise them, but many have either mother, father, brother or husband, who surely must be broken-hearted to see any of their family looking so disreputable.

Where are Dr. Pankhurst and other clergymen—also Mr. Anthony Comstock? A crusade was almost raised against "jack-knives" waist, large hats and tight skirts; is there no one to start a crusade against such an abomination? A law has been passed

against long hairpins. Is there no way of making a law against painted faces? Will the mayor, the legislature, the public at large, take active measures to do away with this evil? Oh, could the poor, weak, silly women to have any of our laws controlling by women, where such a large number of them are a disgrace to the name of womanhood."

Will the mayor, the legislature, the public at large, take active measures to do away with this evil? Oh, could the poor, weak, silly women to have any of our laws controlling by women, where such a large number of them are a disgrace to the name of womanhood."

Will the mayor, the legislature, the public at large, take active measures to do away with this evil? Oh, could the poor, weak, silly women to have any of our laws controlling by women, where such a large number of them are a disgrace to the name of womanhood."

## GOOD FURNITURE!

We have just unloaded a Car of Furniture which we believe will satisfy a long felt want in the town and district.

This car contained medium class furniture only, and we think we can sell it out at lower prices than you have ever known before in the West. Kindly compare the prices below with anything you have previously known,

Dressers, double top, 18x32 in., bevelled mirror 13x22 in., Quartered Oak finish, at \$9.00  
Stands to match, at \$4.00  
Chiffoniers in Quartered Oak finish, bevelled mirror, at \$11.50  
Kitchen Chairs at 60c and 75c  
High Chairs at \$1.25  
Diners, hardwood, Golden Floss finish, arm brace, at \$1.00 and \$1.25

## BEDS

White enamel, brass caps, 1½ in. Iron Posts, any size, at \$4.00  
Springs, very fine woven wire mesh, with five supports, at \$3.00

We consider this Bed, complete with Spring and Mattress, at \$10 Unbeatable. Limitations of space forbid us mentioning more than a few of our leading lines, but we assure you that equally good values can be found in all our grades of Furniture.

We cordially invite you to visit our store and see for yourself.

**E. G. JOHNS & CO.**  
Gaetz Avenue, N. - Red Deer

# WE WELCOME YOU

## TO OUR CITY---STRANGER AND VISITOR

But in all justice to yourselves don't fail to visit our store. We make it worth your while. To make the fair more enjoyable as well as beneficial to your purse we want you to make our store your trading headquarters as we have arranged some very special inducements

ITS WELL WORTH YOUR WHILE---READ EVERY ITEM

## JOIN THE GOOD FELLOWS

We are ready for the 23rd--the opening of the game season--with a bigger, brighter and better stock than ever. Come and see the guns, handle them--they invite your caresses

### Single barrel Hammer Gun

- No. 10.—Victor Non-Ejector, for black powder, case hardened frame, centre rebounding hammer, pistol grip stock, fancy butt plate, 12 ga. Price \$3.00
- No. 11.—Victor Ejector, same gun as above, excepting that this is an ejector. Price 6.50
- No. 505.—Plain extractor, 30 in. plain steel barrel, choke bored, fine walnut stock with pistol grip and rubber butt plate. Patent snap fore-end, top lever, rebounding lock, case hardened semi steel frame. Price 7.50
- No. 510.—Same specifications as above, excepting that this has automatic ejector. Price 8.00
- No. 215.—This is the best gun for the money we know of. If you want something thoroughly reliable for your boys, and a gun that will hit as hard as your own \$75 or \$100 double barrel, buy him this. It has an extra heavy breech, plain steel full choke barrel, fine black walnut stock and rubber butt plate, automatic ejector. Price 11.00

### Repeating Shotguns

THE NATIONAL.—This is our Special. We searched the market for a reliable repeater to sell at \$25 and this gun is the result. Last season an old hunter on whom we could depend came in to buy a well known higher priced pump gun and we asked him to take this on approval, use it for the season and then pay for it if satisfied, otherwise return it. He came in after the season and paid for it—saying it was one of the best guns he had ever put to his shoulder. Name furnished on application. The barrels, which are strictly interchangeable, are rolled blue steel, chambered for 23-4 in. or 25-8 in. shells, bored for black or smokeless powders, fully tested with excessive loads. The full choke barrels are guaranteed to put 325 pellets in a 30 inch circle at 40 yards, using 1 1-4 oz. of No. 8 shot. Stocks are made of straight grain black walnut, oil finished, 13 1-2 in. long, 1 5-8 in. drop at comb and 2 1-2 in. drop at heel. Hard rubber butt plate. The forearms are also of black walnut, cross lined for quick handling. Magazine holds 5 shells and with one in the chamber makes 6 shots. We deliver this gun to any Express Co.'s office in Alberta or Saskatchewan free of charge. Price only 25.00

We have also in stock the following makes of repeating shot guns that are so widely advertised that we need not describe them:

WINCHESTER  
STEVENS  
REMINGTON

All in 12 ga. 30 in. barrels. Other gauges and lengths can be quickly procured.

### Small Bore Rifles

Little Scout, .22 cal.	\$3.25
Remington No. 6, .22 cal.	5.00
Winchester 1902, .22 cal.	5.00
Savage Jr., .22 cal.	5.50
Savage Mod., 1911, 20 shots, .22 cal.	8.50
Winchester Mod. 1906, .22 cal.	12.50
Remington No. 12, .22 cal.	14.00

### Double Bbl Hammer Guns

- No. 5012.—Twist barrels, left choked, back action, rebounding lock, top snap, circular hammers, plain extension rib, checkered pistol grip, stock and fore-end. 12 ga. 30 in. barrels. Price 10.00
- No. 5312.—Laminated steel barrels, bar action, case hardened mountings, Greener cross bolt, matted extension rib, 12 ga., 30 inch barrels. Price 12.50

- No. 0.—Army steel barrels, specially bored for smokeless or black powder, matted extension rib, both barrels choke bored. All parts made of drop forgings (no castings used), top lever action, bar rebounding locks, spiral main spring, Deeley and Edge fore-end. 12 ga. 30 in. barrels. Price 14.00
- No. 2.—Same as above with genuine twist barrels. Price 17.50
- No. 3.—Damascus barrels, specially bored for either smokeless or black powder, matted extension rib, both barrels choke bored. All parts are made of drop forgings (no castings used). Top lever action, bar rebounding locks, spiral main spring, D. & E. fore-end. Guaranteed not to shoot loose, 12 ga. 30 in. barrels, weighing from 7 1-4 to 8 lbs. Price 20.00
- No. 25 Leader Grade.—The Tobin hammer gun, constructed on the same action and frame model of the "Simplex" hammerless pattern, with the same giant cross bolt fastening and compensating fore-end joint, easily makes it the superior of any hammer gun ever put on the market. For the shooter who requires the dependable kind that can be relied upon where a gun means business, the Leader grade hammer gun stands first choice. Stocks of selected walnut, half pistol grip, length 14 1-8, drop 2 1-2 to 3 1-8 inches. Barrels of "Trojan" Nitro Steel, 12 ga. 30 in. Weight 7 to 8 lbs. Price 25.00

### Double Barrel Hammerless Guns

- "Knickerbocker Hammerless"
- No. 6.—Genuine Army steel barrels, specially bored for Smokeless or Black Powder, matted extension rib, with cross bite on extension rib, both barrels, choke bored. All parts are made of drop forgings (no castings used). D. & E. fore-end. Indicators are also fitted to the looks which show at a glance whether hammers are cocked or otherwise. Made in 12 gauge, 30 in., weighing from 7 1-4 to 8 lbs. Price 18.00

- No. 7.—Same specifications as No. 6, except that barrels are of twist. Price 20.00
- No. 8.—Same specifications, excepting barrels are Damascus steel. Price 25.00

### No. 40 Standard Grade

The Standard grade is a plain, well-finished gun, with workmanship and quality that distinguishes it as a fine firearm in comparison with any arm of the hammerless type made. The fitting of the gun is unequalled by any other on the market within reasonable limit of the price at which we are able to offer it.

Stocks—Plain dark imported and selected walnut, full pistol grip. Length 14 1-8, drop 2 1-2 to 3 1-8 inches. Barrels—"Trojan" Nitro steel. 12 gauge, 28, 30, 32 inch; 16 ga. 26 and 28 inch. Weight—12 gauge, 6 3-4 to 8 lbs.; 16 gauge, 6 to 7 lbs. Price \$35.00

### No. 55 Black Diamond Grade

The Black Diamond Grade is a medium price gun with all the fine appearance and finish, combined with good, sound workmanship that go to make this popular model one of our most attractive sellers. This unique Pyro-oxidized black finish is seldom seen on a gun of such moderate price.

Stock—Dark selected imported walnut stocks, full pistol grip. Length—14 1-8, drop 2 1-2 to 3 1-8 inches. Barrels—"Trojan" Nitro Steel. 12 gauge, 30 inch. Engraving—Hand line engraved. Weight—12 gauge, 6 3-4 to 8 lbs.; 16 gauge, 6 1-4 to 7 lbs. Price \$40 net. With Ejector \$60 net.

V. H. Parker Bros. celebrated Vulcan grade—a strictly high grade gun at a very low price—indeed we believe that at the price there is no better made in the world. We have sold them for 12 years and in this time have never known one to go out of order or to require 10 cents worth of repairs. This is a unique record and is the most eloquent tribute we can pay it. Barrels are of Vulcan steel, an exceptionally strong, high class steel, and a very satisfactory barrel. These guns are fitted with extreme care and are the equal in every respect of many guns of other makes at twice the price. 12 ga. 30 inch barrel. Plain Ejector \$55 Automatic Ejector \$80

## SHOOTERS' SUNDRIES

Our stock is very complete this year and includes a nice variety such as Recoil Pads, Hand Protectors, Game Carriers, Cartridge Bags, Cartridge Cases, Cartridge Belts, Gun Cases in leather and canvas, Shooting Coats, Dog Whistles, Duck and Goose Calls, Hunting Knives, Drinking Cups, Gun Oil and Grease, Cleaning Rods, Gun Cleaners, Shell Extractors, Shell Crimpers, Loaders, Re-cappers and gun implements in set.

## AMMUNITION

Our trade in ammunition is very extensive. The manager of a sporting goods house in Winnipeg says we are the second largest retail seller of ammunition between Winnipeg and the Coast.

## CYKO PAPER

### WHAT IT IS, AND WHY YOU SHOULD USE IT.

CYKO is the best lamp-light developing paper on the market today. It requires less careful exposure than any other similar paper, and it is therefore the best amateur paper.

Negatives from which you get poor results will give you good results with Cyko. Pretty strong claims, but try it and see for yourself. NOT ONLY THAT—but it is the CHEAPEST paper.

All sizes up to Post Card size, 2 doz. for 25c.  
Post Cards 15c doz. or 80c for 1/2 gross pkg.  
3 1/4 x 5 1/2 and 4 x 5 paper 15c doz.  
5 x 7 paper 30c doz.

Our sales are increasing by leaps every month on this paper.

THE REXALL STORE  
THE Gaetz-Cornett Drug & Book COMPANY

## LOCAL AND GENERAL

See the new fall Fedoras at Brown & Fulton's.

Don't forget to call and see the Great West Lumber Co.'s exhibit at the Red Deer fair.

An early shipment of fall hats just arrived—Brown & Fulton's. Every citizen should attend the Horticultural Society's show at the school tonight. Admission free.

Mrs. J. A. Carswell has been at Vegreville visiting her daughter, Mrs. Cunningham, during the past week.

James Mann, of Lathrop & Thorpe's office, returned from his business trip to the coast Sunday.

For the newest patterns and latest designs in fall suits see Brown & Fulton.

Miss Cottingham handed us in some of the largest peas we have ever seen this week. Some of the pods were six inches in length.

Mr. and Mrs. Thos. A. Gaetz, together with Mr. Gaetz's father, who is visiting him, have been spending a well earned holiday at the coast.

Go and see the pretty homes the Smith Land Co. have for sale in Red Deer West—and by all means take your wife along.

Trachets, trustees and parents are kindly invited to visit John McVicar's bookstore on fair week, and see our stock of school books and flags.

Mrs. and Miss Stent will receive the fifth Friday in August, 30th inst. Mrs. Stent will not receive again this season, nor during the winter.

Joseph E. Wright, of Calgary, is building a large brick livery barn in the rear of the Imperial Bank on 1st Street South. The concrete foundation is already laid.

The band will be in attendance at the flower show this evening. On Thursday and Friday evenings the band will play their fifth and sixth concerts of the series on the Dominion Lands Office Square, commencing at 8.30 o'clock.

The band gave the fourth concert of the series in Gaetz Park on Sunday afternoon last, commencing at 8 o'clock. "The Holy City," as a haritone solo by Mr. Thos. Lloyd, with hand accompaniment, was very well rendered and won Mr. Lloyd many compliments.

R. C. McLean, of the firm of McLean Bros., will leave probably Sunday night on a buying trip to Winnipeg, Chicago, New York, Montreal and Toronto, where he will visit all the leading wholesale houses and pick up the latest ideas in dry goods as well as the grocery business.

M. Mecklenberg, A.M., the celebrated and 25 year experienced eye specialist, of Archibald Block, Edmonton, will again be at the Arlington Hotel, Red Deer, Saturday, August 24. Spectacles, eye glasses and artificial eyes the very best at moderate charges. Absolute satisfaction guaranteed.

While you are seeing the fair, be sure to take in all the sights. You will not have seen all unless you have had a look at our listing of farm and town property. We can show you how to make money here. Call and see us if you want a farm, a house or a good investment—William Bros., Real Estate, 11, Ross St.

H. A. Watson, accountant of the Imperial Bank, has resigned his position, and left Thursday last to enter into business on his own account in Victoria, B.C., where he has been appointed agent of the Imperial Life Insurance Co. Mr. Watson's many friends in Red Deer will regret his departure from town and wish him success in his new and broader field of labor.

Mrs. Creighton, one of the best known woman speakers of the British Isles, has promised to address the branch of the Woman's Auxiliary belonging to St. Luke's church, on Friday afternoon, Sept. 13. It is hoped that a general meeting will be held on that evening so that an opportunity may be afforded to all who wish to hear this gifted lady. Mrs. Creighton is the wife of the late Bishop of London.

The death occurred at Antler Hill (Innisfail) on Tuesday evening, August 13th, of James Malcolm, well and favorably known throughout the district, at the age of 71 years and 4 months. Mr. Malcolm had been failing for some time, but had been really ill and confined to his bed for about two weeks. The funeral took place on Thursday afternoon, interment being made in Innisfail cemetery.—Innisfail Province.

Judging from the good company of buyers which met at the sale of Mr. F. B. Harrison, Pine Lake, on Saturday last, although in the busy season of having, seemed to point to the fact that they must give him a good send-off on his journey to the home land, for where he has now left. They not only met to wish him a goodbye, there were there for business, too, as the total realised by the sale proved, everything selling well. A few of the prices realised are as follows: A 3 year old Shorthorn cow made \$65, and a halfbred Jersey \$106, while her 3 weeks old calf sold quickly for \$33. The teams, too, sold well, bringing in the total which Mr. Harrison placed them at. Spring chicken made 31 to 41 cents each. Implements, too, sold well. The Scotch hebs making \$12.50, and a mower the auctioneer sold to him at a previous sale for \$37 brought \$22; so that Auctioneer Mott, who has been so successful in his sales for the past few years, and is now leaving for the coast, felt he had made a splendid finish at his last country sale in Alberta.

See the new fall Fedoras at Brown & Fulton's.

Red Deer West got away to a good start and has been going some ever since.

Chief Horace Meeres returned a few days ago from attending the Convention of Western Fire Chiefs, held at Saskatoon.

Joseph Slade, of Edmonton, is in town looking up old friends. He will act as Judge at the Horticultural Society's show tonight.

James Cruickshanks is making preparations to erect a splendid up-to-date livery barn, to cost \$8,000, on his property near the Windsor Hotel.

Messrs. Lund, Parker, Davis and Dan Smith of the Red Deer Gun Club took on Monday of last week and took a number of prizes.

Mr. Jos. Weir, of Nelson, B.C., representing the firm of A. P. Calhoun, Ltd., of Vancouver, was in the city this week looking into the future prospects of Red Deer from an investment standpoint. He went away very much pleased with the outlook.

Miss E. Hart of Saskatoon N.B., who has been spending a year at home with her people, was the guest for a few days at last week of Mrs. E. C. McLeod. She left on Monday for the coast from where she will sail for Japan to again take up her missionary work there.

Mr. Markle, Inspector of Indian Agencies, presented the Dr. George Museum with an Indian head carved out of stone by a Blackfoot Indian named Wolf Collar. It is quite a curiosity. Dr. George also has a mountain sheep carved in wood by a young Shespe Indian named Sila Abraham.

Mrs. Payne and family left a week or so ago for an outing at Banff. Mr. Payne joining his family at the week's end. Mr. and Mrs. Roy Corbett returned from a week's visit to Banff Saturday. Mr. J. McLeod also returned after spending a holiday there, and Mr. and Mrs. Bradfield were there last week, after which Mrs. Bradfield will visit relatives in the east.

A very interesting and popular argument, recently announced in Sun-derland, England, is that of Mr. Albert E. Short's brother Harry and fifth son of Mrs. Short and the late J. G. Short of Ashbrook Hall, Sunderland, and Bradford Hall, to Vera, the eldest daughter of O. Hedley, of the Nook, Sunderland, and granddaughter of Sir Thos. Duxford, of Lady Duxford, Grindon Hall, Sunderland, England. The marriage will take place shortly.

### THE BINDER BUSY.

Wheat cutting has commenced. J. J. Gaetz has finished cutting his wheat. Messrs. Lund and others are busy cutting this week. Grain cutting will be general next week. The weather is splendid, and the harvest will be the best and biggest in the history of the Red Deer district.

### Pitcox

August 8th, 1912.  
We were pleased to note the interest the correspondent for The News of August 7th seems to take in the proposed townsite at Pitcox. We admit that a good general store and hotel and blacksmith shop would be agreeable to most of us. No doubt the up-to-date barber shop, which we intend to erect in said townsite, will be a boon to those who grow whiskers.

We also hope the C.P.R. will be in a position to cope with the problem of the transportation of green feed, for the benefit of those who go extensively into farming. Of course, the more up-to-date farmers, even at this point, can easily ripen their grain. We would also suggest that our friends of the pure bred I. L. Red chicken ranch would go more extensively into ducks than chickens, as they are better adapted to low wet ground, and are much better at rustling their own living. He should also note that neither do very well on green feed.

Mr. Plowman's home has been the centre of attraction for the past week, owing no doubt to the fact that Mr. Plowman's niece, Mrs. Main and daughter, Miss Florence, from Cleveland, Ohio, have been visiting them. We might remark just here that the young swains have some difficulty in deciding just who has the "big standing."

Mr. and Mrs. McLane and little daughter from Peterboro, Ont., are also visiting at Mr. Plowman's.

In coming home late on Friday night of the 9th we had an interesting moving picture show from natural life, displayed vividly in the brilliant flashes of lightning. It was quite evident there had been a little social "hop" held in the cheese factory. It seems while they were doing the "light fantastic," there came one of those pleasant heavy plunks, putting the road in a more than usually muddy condition, and as the dancers had walked down, the "frills" had to be elevated considerably to keep them from coming in contact with mud. We noted, in one very bright flash of electricity, a young cavalier parking his fair lady across a mudhole (without a park saddle).

The rains have been so prevalent here for the past month that one of our friends gave us a lecture last Sunday on "Noah and the Flood," which was quite interesting. We never know when to look for our mail, for it all seems to depend on how kind the Red Deer people are in lending Mr. Foster horses.

Brown & Fulton make a specialty of made-to-measure clothing.

A happy, healthy place to live—Red Deer West.

The contract for St. Luke's Parish Hall has been let to T. S. Miller, and the building will be proceeded with at once. The hall will be some 30x90 feet, and will cost in the neighborhood of \$14,000 when completed.

### FOR SALE.

Horse, democrat and harness. Apply 135, 5th St. North. This is a snap as I have no place to keep it.

### FOR SALE.

Horse, five years old, weight 1100 lbs., also single buggy and harness, nearly new. Owner leaving. Inquire at this office, or to D. H. TROUTMAN, Michener Hill, Red Deer. Aug. 29, 1w.

### \$25 REWARD.

The above reward will be given for information leading to the conviction of the party or parties who stole the cushion from the back seat of our automobile on Friday evening last, and for the return of the said cushion.

LATIMER & BOTEWILL.  
Red Deer, Aug. 29, 2w.

### NEXT TO WINGS.

Buoyancy and light-heartedness are caused by the state of the stomach or rubber heels, which? Physicians are ready to admit that the resiliency of a good rubber heel will often alleviate the bad effect of a disordered stomach. In other words, the rubber heel is an approved institution. Nor is this all—you will discover their other redeeming features by wearing a pair two weeks.

### H. ROBINSON.

Shoemaker.  
1st St. South, behind Imperial Bank.  
Aug. 21, 1w.

### TENDERS

Sealed Tenders, endorsed "Tender for Olds Public School Building," will be received by the undersigned until six o'clock P.M., August 31st, 1912.

Each tender to be accompanied by a certified bank cheque; cheque to equal 5 per cent. of the amount of the tender. The said cheque to be made payable to James F. Grant, Secretary-Treasurer, Olds Public School District, No. 235, and to be forfeited if the tenderer refuses to enter into a satisfactory contract.

Plans and specifications may be seen at J. Duff & Co. Hardware Store, Olds, and at the City Clerk's Office, Red Deer, Alberta; also at the Architect's Office, Rooms 8 and 9, Dominion Block, 135A, Eighth Avenue East, Calgary, Alberta.

The lowest or any tender not necessarily accepted.  
JAMES F. GRANT,  
Sec'y, Olds Public School District,  
Box 204, Olds, Alta.  
Aug. 19, 2w.

**Guns And Ammunition**

### IN AMMUNITION WE HAVE

Cogswell & Harrison Shells  
Remington Shells  
Winchester Shells  
Eley's Shells  
Dominion Shells

IN GUNS WE HAVE THE LATEST MODELS  
Pump Guns, Remington and Winchester. We also carry a full line of Coats, Waders, etc.

SEE OUR STOCK.

**The Day Hardware Co.**  
WE STAND FOR PROGRESS

## Go And See Them--- That's The Best Way.

Go and see the pretty homes we have for sale in RED DEER WEST.

Look at them—inside and out.

Examine the wood work and finishing—the floors, the walls and the ceiling.

Note the quality of the material used throughout.

See the arrangement of the rooms.

Try the splendid water.

Put down a small cash payment and move in.

**The Smith Land Co.**  
ROSS STREET RED DEER

## CENTRAL ALBERTA FAIR

### RED DEER, AUG. 21, 22, 23

## YOU

Are Cordially invited to make our booth your headquarters during fair time. We are located in the southwest quarter of Industrial Building.

All Lumber used in our Exhibit is strictly Native Spruce and Pine. Drop in and let us show you.
